HERE is a face bleach which will help you out of your troubles:

Bichloride of mercury in coarse powder, 10 grades; distilled water, 1 pint. Agituite the two together until a complete solution is obtained. Then add 1-5 cumes of glycerine. Apply with a small sponge as often as agreeable. This is not strong enough to bileter and skin the face in average cases. Scrub it well, just as you would if you were shout to use it for your hands. Scrub the face thoreughly, dating especial care of the places that most require clean water, so as to get all the soap out of the pores. Dry earefully and apply a cream or toilet balsam.
